## EDUCATION

---

**Terna Engineering College**  
*Bachelors in Computer Engineering*

Nerul, Mumbai  
Aug. 2020 – May 2024

**V.G Vaze College**  
*Higher Secondary School Certificate*

Mulund, Mumbai  
Aug. 2018 – May 2020

## EXPERIENCE

---

**React Developer**  
*Megamind Education and Welfare Ltd.*

April 2022 – June 2022

- Designed and developed applications using React and JavaScript to enhance code readability and performance. Refactored previous code to support newer versions and fixed issues with previous code.
- Implemented responsive design to website that allowed the application to be used across multiple devices with minimal modifications and clean code.

## PROJECTS

---

**Crypto Exchange and NFT Marketplace** / *React, NextJs, Solidity, MetaMask*

- [GitHub](#) [Website](#)
- Developed a full-featured crypto exchange platform where users can view real-time cryptocurrency process, including 24-hour highs, lows, and percentage price changes.
- Enabled seamless buying, selling, and viewing of NFTs directly through the website by integrating MetaMask wallet connectivity.
- Implemented a dynamic news component to display trending blockchain news, and an FAQ section to help users navigate and understand complex domain concepts

**In-memory key value database** / *Rust, SvelteKit, Nodejs*

- [GitHub](#)
- Developed VaporDB, a high performance, scalable in-memory key-value database inspired by Redis, supporting data structures such as strings, lists, hashes and sets, and added table compaction features for optimal memory management, reducing fragmentation, and improving storage efficiency.
- Implemented both active and lazy TTL (Time-to-live) cleanup strategies, ensuring expired data is efficiently removed from both memory and disk.
- Designed as a lightweight data store accessible via both server and CLI interfaces, allowing users to interact seamlessly through a moder sveltekit-powered frontend or command line.

**Tool discovery and blogging platform** / *Sveltekit, Better-auth, PostgreSQL*

- [GitHub](#) [Website](#)
- A comprehensive platform for discovering, submitting, and advertising a wide range of software tools, designed to help users find and evaluate the best solutions for their needs.
- Users can browse and read detailed descriptions and reviews of multiple tools, as well as submit new tools or promote existing ones to reach a wider audience.
- Integrated a full-featured blogging system where users can create, update, and delete blog posts, with support for rich content and media. Users can like, comment, save and share their favorite blogs.

## TECHNICAL SKILLS

---

**Languages:** Javascript, Rust, Golang, Java, C++  
**Frameworks:** React, Node.js, Express, MongoDB, Astro  
**Developer Tools:** Git, Firebase, PostgreSQL  
**Libraries:** Nextjs, SvelteKit, Astro
